## User Manual for **Windsor Wooden Cot & Bassinet**

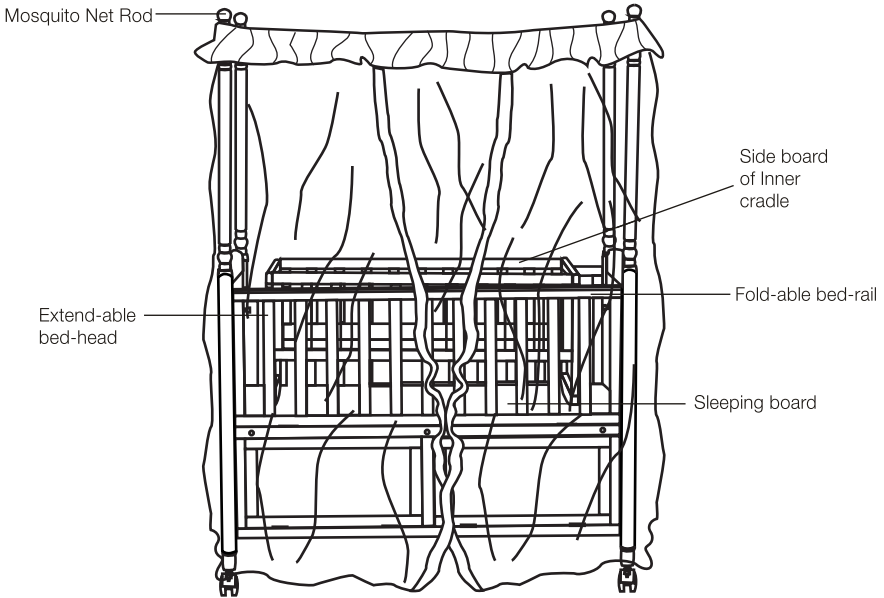

- The crib can be used for 0 to 3 years old child.
- Do not leave the child unattended in the crib.
- Please use the brakes to stop the movement.
- Do not use parts that are not provided by the manufacturer.
- Do not place the crib next to any heater, burner etc., keep it away from fire.
- Please keep the plastic covering (plastic bags) away from your baby in order to avoid the risk of suffocation.
- Do not use the crib next to the door, stair and footstep, it must be used at a flat and barrier-free place.

### Tips for maintenance

For the safety of your baby, please check and inspect the crib regularly. When disassembling the crib, please strictly follow the user manual to avoid any damage.

### Instructions for Installation and Usage

- There are two layers of board. The upper one is a sleeping board and the lower one is a storage tray.
- The bed-rail can be opened to join the crib with an adult bed .
- Crib can be extended to increase the length.
- Small cradle is included, that can be used inside the crib or separately

## Hardware:

1. Bolt M6\*50 (16PCS) M6\*30 (8PCS) Straight bolt M7\*6 (4PCS)
2. Iron hook (4PCS) Spring pin (2PCS) Handle (2PCS)
3. Truckle (4PCS)
4. Mosquito net (1 PCS)

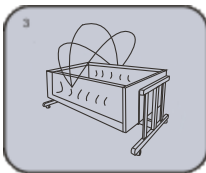

## Installation Instruction

1. As shown in the picture: Assemble the extend-able bed-head, bed-head, bed-rail and fold-able bed-rail with eight M6\*50 bolts, then place the sleeping board and storage tray at the upper and lower level respectively.

2. As shown in the picture: Fix the four truckles into the four legs of the bed. Fix two spring pin on the fold-able bed-rail, and fix two handles on the two small doors.

3. As shown in the picture: Use eight M6\*30 bolts to assemble the front board, back board and two sideboards of the interior cradle. Put four iron hooks at the second inter-space of the front and back boards respectively, then install the sleeping board.

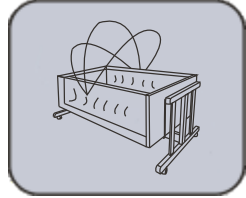

4. As shown in the picture: Use four MT'S straight bolts to fix four legs for mosquito net at the four corners of the crib. Then use eight M6\*50 bolts to fix two long rods and two short rods onto the legs for mosquito net. Then install the mosquito net. The installation of the crib is completed.

## Uses

1. As shown in the picture: There are two layers of boards. The upper one is sleeping board, while the lower one is a storage tray to keep baby's essentials.

2. As shown in the picture: The cradle can be used alone, or used inside the big crib

3. As shown in the picture: The fold-able bed-rail can be opened to join it with adult bed.

4. As shown in the picture: The crib can be extended to increase the length.
