User's Manual

Ionia Cradle With Mosquito Net

Style Code: NUBF025

babyhug[™]

baby furniture

- Swing With Balance
- Mosquito Net
- Wheels With Lock

Please read the instructions carefully before use and keep this manual for future reference.

Safety Warning:

- The cradle should always be locked when the child is unsupervised.
- Young children should not be allowed to play in the vicinity of the cradle.
- The cradle should always be placed on a firm and level surface.
- A mat size of 90 cm in length and 51 cm in width is suggested
- Do not leave anything in the cradle or place the cradle close to other items, which could provide a foothold or present a danger of suffocation or strangulation.
- All assembly fittings should always be tightened properly and fittings should be checked regularly and re-tightened as and when necessary.
- Do not use the body of cradle without the frame.
- Be aware of the risk of open fire and other sources of strong heat, such as electric bar fires, gas fires, etc. in the near vicinity of this cradle and do not place it near windows or other furniture.
- When the child is able to sit, kneel or pull itself up, the cradle should not be used anymore for this child.
- Do not use the cradle if any part is broken, missing or torn

Assembly Instructions:

Contents:

Bed Board : 1

Straight Sides : 2

Head Board : 1

Foot Board : 1

Caster Wheels : 4

M5*28 mm Bolts : 4

Nut : 4

M6*35 mm Bolts : 8

Base Board Hook : 4

Iron Rod : 4

Gasket : 8

M6*50 mm Bolts : 8

Cap Nuts : 8

Mosquito Net : 1

Support Frame : 2

Connecting Beams : 2

As shown in **figure 1**, bring the straight side boards, the head and foot boards together and join them with 8 M6*35 mm bolts

As shown in **figure 2**, fix the caster wheels on to the support frame of the cradle with M5*28 mm bolts and blind nuts

As shown in **figure 3**, connect the two ends of the support frame together with the two connecting beams and use 8 M6*50 mm bolts to fix them in place

As shown in **figure 4**, to mount the cradle on to the supporting frame, the swing rods have to be used. These rods are also instrumental in the swinging motion of the cradle. Fix one end of the swing rod on to the cradle and the other end on to the holes provided for the rod on the supporting frame. Insert the swing lock cylinder through the frame and the cradle and fix it with self-drilling screws. Next, attach the cap nut and screw it in place

As shown in **figure 5**, 4 iron hooks are provided to hold the bed base in place. Place these 4 iron hooks on the lower part of the cradle and place the bed board on these hooks

Fix the mosquito net to cover the complete cradle.

Care:

- Regularly check the tightness of bolts and tighten as necessary.
- Check for damage which could render your cradle unsafe or cause splinters.
- To clean use a soft cloth, avoiding the use of strong detergents or abrasives.
- An occasional light application of a wax polish will help maintain a good appearance.
