Maintenance knowledge

The walker is a tool for babies who can't walk independently. In order to ensure that your baby is free from accidental injury,

Please check and maintain the walker frequently.

- before each use, check whether all fasteners are fastened well.
- for the walker with folding function, check whether its folding device is reliable.
- avoid long-term use or storage in humid, cold or high-temperature environment.
- avoid overload operation.
- in order to ensure the baby's health, please clean the walker regularly. The smooth part of the whole vehicle can be wiped with wet wipes

Wipe, cushion and toy parts on the car can be brushed with a small brush.

All raw materials are safety materials.

1. Plastic: PP. 2. National standard steel. 3. Non toxic white plastic powder.
Strict process control and product quality inspection are carried out from the arrival of raw materials to the delivery of products. It is our long-term principle to provide high-quality after-sales service for every customer. If you cause damage to the whole vehicle or parts in use, please contact the after-sales service team of our factory or the company's special maintenance point, sales point and maintenance center for maintenance.

- the rechargeable battery shall be removed from the toy before charging
